

Laclede Gas RESIDENTIAL HIGH EFFICIENCY REBATE PROGRAM

Laclede Gas offers residential customers rebates to help make upgrading to more energy efficient equipment easier. Follow the steps in this rebate application to start saving energy and money now and for years to come!

Use this form or apply online at LacledeGas.com/savings to obtain a rebate on eligible **water heaters, furnaces, boilers, integrated systems, and programmable setback thermostats purchased and installed after May 1, 2015.**

How It Works:

1. Determine that the equipment you're installing qualifies for a rebate. A list of eligibility requirements for your equipment is included in this form and can also be found at LacledeGas.com/savings. Your contractor can help guide you toward the right purchase that best fits your needs.
2. Purchase and install your new qualifying equipment. Save all receipts and product information. Eligible equipment must be purchased and installed in a residence with an active Laclede Gas account.
3. Fill out the Product Purchased Details section of the application that applies to your equipment purchased and installed.
4. Mail in this completed form and a copy of your contractor's invoice with complete manufacturer and model numbers and/or store receipt(s).
5. You'll receive your rebate check in about 4 to 6 weeks.

What You'll Need To Apply:

- Your 10-digit Laclede Gas Account Number
- A copy of a dated sales receipt/invoice showing manufacturer, model #, price and date of purchase
- We also ask for (but do not require) an estimate of the age and efficiency of equipment you've replaced. Your contractor can help you with this information if you cannot locate it.

Need help at any time? Visit lacledegas.com/efficiency or call 1-866-542-4352.

Terms and Conditions

- Rebates shall not exceed the final purchase price or out-of-pocket cost.
- **Eligible equipment must be purchased and installed in a residence with an active Laclede Gas account.**
- **Water heaters** must be rated with an Energy Factor (EF).
- **Programmable setback thermostats** qualify if they feature four (4) pre-programmed settings for 7 day, 5+2, or 5-1-1 day programming capability.
- **A rebate for eligible equipment can be obtained up to one year after the purchase and installation** as long as the applicant still owns and/or occupies the residence where the eligible equipment was installed and has an active Laclede Gas account.
- **Rebate Limit:** Individual dwelling units, as determined by account number, whether owner-occupied or rental property, are eligible for a maximum of two heating system rebates (furnace/boiler), two water heater rebates, or two Integrated system rebates, and two programmable setback thermostat rebates, under this program.
 - Owners of multiple individually metered dwelling units are limited to a maximum of 50 heating system rebates (furnace/boiler), 50 water heater rebates, or 50 integrated system rebates, and 50 programmable setback thermostat rebates during one program year.
- **Additional Terms: Rebates valid for eligible equipment purchased and installed after May 1, 2015.** This rebate is available to all residential customers of Laclede Gas Company and its operating divisions (Laclede). It is subject to the terms and conditions of the program and to change or terminate without prior notice. Funding is limited. Funding is administered by EFI and provided to Laclede customers in cooperation with the Missouri Public Service Commission, the Office of the Public Counsel, and the Missouri Department of Economic Development. Laclede reserves the right to conduct field inspections to verify installations. Laclede does not guarantee the performance of installed equipment expressly or implicitly.

For more information, visit Laclede's website at <http://www.lacledegas.com/efficiency/> or call EFI at 1-866-542-4352.
